c08 : Sticky Pixel grid sheet

overview

Graph paper mapped out to the 24 x 24 finished sticky note size. Each sticky note is subdivided into 9 individual pixels. Conceptually this represents a 72 pixel square.

Students will complete 3 different colored pencil/pen roughs prior to the construction of their sticky note project.

NOTE: This assignment, specifications, gallery and its accompanying weekly schedule are subject to change according to the pedagogical objectives of the class as determined by the instructor.
